## INDEPENDENT AUDITOR'S REPORT

To the Board of Directors  
FoodLink, Inc. and Subsidiaries  
(dba Regional Food Bank of Oklahoma)

### **Report on the Financial Statements**

We have audited the accompanying consolidated financial statements of FoodLink, Inc. and subsidiaries (dba Regional Food Bank of Oklahoma), which comprise the consolidated statements of financial position as of June 30, 2015 and 2014, and the related consolidated statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## **Opinion**

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of FoodLink, Inc. and its subsidiaries as of June 30, 2015 and 2014, and the changes in their net assets and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

## **Report on Summarized Comparative Information**

We have previously audited the Food Bank's 2013 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated September 30, 2013. In our opinion, the summarized comparative information presented herein for the year ended June 30, 2013, is consistent, in all material respects, with the audited financial statements from which it has been derived.

## **Other Matters**

### *Other Information*

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying schedules of expenditures of federal awards and state awards are presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and are not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the consolidated financial statements as a whole.

## **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated September 29, 2015, on our consideration of Food Bank's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Food Bank's internal control over financial reporting and compliance.

(FoodLink) and Regional Food Bank Foundation (Foundation) are Oklahoma not-for-profit corporations, which were formed exclusively to support the activities, affairs and programs of the Regional Food Bank of Oklahoma, Inc. (RFB). RFB was established in May 1980, and its primary activities include solicitation and receipt of food items of local, regional and national food companies that are distributed to other charitable feeding programs in 53 central and western Oklahoma counties.

**Note 2 – Summary of Significant Accounting Policies**

Consolidated financial statements

The consolidated financial statements include the activities and net assets of FoodLink and its commonly controlled subsidiaries, RFB and the Foundation (collectively Food Bank). All material intercompany transactions have been eliminated in the consolidated financial statements.

Basis of presentation

The consolidated financial statements have been prepared on the accrual basis of accounting. The assets, liabilities and net assets of Food Bank are reported in three classes of net assets as follows:

- Unrestricted net assets represent the portion of expendable funds that are available for support of RFB operations.
- Temporarily restricted net assets represent funds with donor-designated restrictions for acquisitions, capital campaign funds, maintenance of the facility and equipment or specific programs.
- Permanently restricted net assets represent funds that are subject to donor-designated restrictions requiring the principal to be invested in perpetuity and only the income be available for use.

Food Bank reports gifts of cash and other assets and unconditional promises to give as restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires (that is, when a stipulated time restriction ends or a purpose restriction is accomplished), temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statements of activities as funds released from restrictions.

Food Bank reports gifts of long-lived assets as unrestricted support unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted support. Absent explicit donor stipulations about how long those long-lived assets must be maintained, Food Bank reports expirations of donor restrictions when the donated or acquired long-lived assets are placed in service.

Contributed food is recognized as unrestricted support when received and as program expenses when distributed.

Contract revenues under grants for reimbursement of expenditures are recognized as unrestricted revenues in the period in which the expenditures in compliance with the specific grant restrictions are incurred.

Unconditional promises to give are recognized as contribution revenue in the period the promise to give is made by the donor, and as assets, decreases of liabilities or expense, depending on the form of the benefit received. Promises to give are recorded at the estimated net realizable value. Conditional promises to give are recognized when the conditions on which they depend are substantially met.

### Inventory

Inventory consists of contributed and purchased food items. United States Department of Agriculture (USDA) contributed food items are valued at per pound amounts established by the USDA. Other contributed food items are valued at estimated weighted average wholesale amount per pound as determined by Feeding America. Purchased food items are stated at the lower of cost (determined on the first-in, first-out method) or market.

### Donated services

Food Bank uses, to varying degrees, the services of unpaid volunteers in conducting its warehousing and distribution activities. For the year ended June 30, 2015 and 2014, approximately 34,000 and 48,000 volunteers donated approximately 130,000 and 141,000 hours of service, respectively. No amounts have been reflected in the accompanying financial statements for such donated services because they do not meet the criteria for recognition.

### Cash and cash equivalents

Food Bank considers certificates of deposit, money market funds, and all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents. At June 30, 2015 and 2014, Food Bank had \$10,090,629 and \$12,033,798 in cash equivalents, respectively.

Food Bank maintains its cash and cash equivalents in accounts which typically exceed federally insured amounts. Food Bank has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk on cash and cash equivalents.

### Investments

Food Bank's investments, which are held under managerial agency agreements, include equity securities, pooled equity mutual funds, federal and federal agency debt securities, certificates of deposit and money market funds, which are carried at fair value, based upon quoted market prices or dealer quotes. Unrealized gains and losses are reported in the consolidated statement of activities. Donated investment instruments are initially recorded at estimated fair value at the date of the donation.

### Property, plant and equipment

Property, plant and equipment is recorded at historical cost or estimated value at date of donation. Depreciation of these assets is provided on the straight-line basis over the estimated useful lives of the respective assets, which range from 3 to 39 years. Maintenance and repair costs are expensed as incurred, while renewals and betterments are capitalized and depreciated over their estimated useful lives. Upon disposition, the cost and related accumulated depreciation are removed from the accounts and the resulting gain or loss is reflected in the consolidated statement of activities for the period.

### Restricted cash

Restricted cash represented cash received for the Food Bank's capital campaign (see Note 14) that was used for facility improvements and expansion.

### Allocation of expenses

Salaries and wages are allocated based on actual staff position. Administrative expenses are allocated to each area based on an estimate of usage. Occupancy expenses are allocated based upon square footage and communication expenses are allocated based upon headcount.

### Capital lease

Food Bank leases transportation equipment under a capital lease, which is recorded at the lower of the net present value of the minimum lease payments or the fair value of the transportation equipment at the inception of the lease.

Amortization of the capital lease is computed using the straight-line method over the shorter of the estimated useful life of the asset or the period of the related lease (seven years).

### Income taxes

No provision for income taxes has been made in the accompanying financial statements because Food Bank is exempt from federal taxes on income related to its exempt purpose under the provisions of Internal Revenue Code Section 501(c)(3).

### Use of estimates

In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions in determining the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

### Concentration of credit risk

Financial instruments which potentially subject Food Bank to credit risk consist of accounts receivable, unconditional promises to give and investments. Credit risk for all of Food Bank's receivables is concentrated because the majority of the balances are receivable from individuals and entities located within the same geographic region.

Food Bank's investments consist of various equity and fixed income securities funds. Investment securities are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the investment account balances and the amounts reported in the consolidated statements of financial position and the consolidated statements of activities.

At June 30, 2015, there was no significant concentration of pledge receivable. At June 30, 2014, approximately 46% of the pledge receivable balance was from three significant donors.

### Subsequent events

Management has evaluated subsequent events through September 29, 2015, the date the consolidated financial statements were available to be issued.

### Note 3 – Pledges and Grants Receivable

Pledges and grants receivable are as follows at June 30:

	2015	2014
Pledges and grants receivable expected to be collected in:		
Less than one year	\$ 1,820,635	\$ 1,851,094
One to five years	2,689,898	2,092,000
Total pledges and grants receivable	4,510,533	3,943,094
Less allowance for uncollectible pledges	(68,075)	(66,659)
Less discount to present value	(146,463)	(126,319)
Net pledges and grants receivable	<u>\$ 4,295,995</u>	<u>\$ 3,750,116</u>

Pledges receivable expected to be received in more than one year are discounted at 4.25% for 2015 and 2014. Substantially all pledges and grants receivable are restricted for use in a future period or for a specific program of the Food Bank.

### Note 4 – Inventory

Inventory is comprised of the following at June 30:

	2015	2014
USDA contributed food	\$ 559,476	\$ 406,120
Purchased food	1,824,682	1,530,659
Other contributed food	4,059,415	2,157,746
	<u>\$ 6,443,573</u>	<u>\$ 4,094,525</u>

### Note 5 – Property, Plant and Equipment

Property, plant and equipment is comprised of the following at June 30:

	<u>Useful Life</u>	2015	2014
Land		\$ 432,085	\$ 364,655
Building	39 years	12,713,384	13,159,249

Agency equipment	5-7 years	1,034,553	1,263,121
Computer software	3-5 years	992,690	900,590
Construction in process		5,331,016	167,301
		25,441,869	20,202,341
Less: accumulated depreciation		8,928,358	8,385,766
Property, plant and equipment, net		<u>\$ 16,513,511</u>	<u>\$ 11,816,575</u>

## Note 6 – Capital Lease

Food Bank leases transportation equipment under capital leases which expire during July – August 2019. Leased properties under capital leases include rolling stock assets of \$918,788, net of accumulated amortization of \$392,868.

The following is a schedule of the future minimum lease payments under capital leases which approximates the present value of the net minimum lease payments as of June 30, 2015:

<u>Year Ending June 30,</u>	
2016	\$ 153,836
2017	153,836
2018	153,836
2019	<u>19,852</u>
Total minimum lease payments	<u>\$ 481,360</u>

## Note 7 – Handling Fees

Member agencies were charged up to \$0.12 per pound of food distributed for the years ended June 30, 2015 and 2014, for their share of Food Bank's operating expenses. Purchased products carried a handling fee of up to \$0.18 per pound in both 2015 and 2014, with the exception of the Temporary Assistance for Needy Families (TANF) product, which did not carry a handling fee. Total agency handling fees were approximately \$766,000 and \$844,000 for years ended June 30, 2015 and 2014, respectively.

## Note 8 – Employee Benefit Plans

Food Bank has a defined contribution retirement plan covering all employees who have been employed by Food Bank for one or more years. Food Bank may make contributions to the plan, with the amounts of such annual contributions determined at the discretion of the Board of Directors. Contributions for the years ended June 30, 2015 and 2014, were \$73,000 and \$67,000, respectively.

Food Bank participates in a 457(f) retirement plan for the Executive Director. Contributions to this plan are contractually mandated to an established limit, and excess contributions are awarded at the discretion of the Board of Directors. Contributions made to the plan for the year ended June 30, 2015, were \$60,000. Contributions are scheduled at \$60,000 for each of the years ending June 30, 2016 and June 30, 2017, and the plan is scheduled to fully vest in the year ended June 30, 2017.

## Note 9 – Beneficial Interests in Assets Held by Community Foundations

Food Bank is the beneficiary of certain endowment funds at the Oklahoma City Community Foundation (OCCF) and The Communities Foundation of Oklahoma (TCFO). OCCF and TCFO are not-for-profit entities that provide for endowed contributions to be pooled to maximize return on investments for the benefit of area not-for-profit organizations. Contributions to the endowment funds are permitted by not-for-profit entities, as well as individual donors in the community who designate the beneficiary of their contributions. Food Bank made no contributions to OCCF or TCFO for the years ended June 30, 2015 or 2014. Earnings on these endowed funds are distributed annually in accordance with the terms of the endowment and each foundation's spending policies.

Endowed funds contributed by Food Bank and the reinvested earnings thereon, net of distributions received, are reflected in the consolidated statements of financial position as beneficial interests in assets held by community foundations. The fair value of endowed funds contributed by third-party donors that are held by OCCF designated for the benefit of Food Bank was \$236,044 and \$237,622 at June 30, 2015 and 2014, respectively. The fair value of endowed funds contributed by third-party donors that were held by TCFO designated for the benefit of Food Bank was \$1,812 and \$3,555 at June 30, 2015 and 2014, respectively. These foundations have variance power over contributions they have received from third parties on behalf of Food Bank. Accordingly, such endowed funds are not reflected in Food Bank's consolidated statements of financial position.

#### **Note 10 – Endowment Funds**

The Board of Directors (the Board) interprets Oklahoma law as requiring the preservation of the fair value of the original donor-restricted endowment funds as of the gift date of the donor-restricted endowment funds, absent explicit donor stipulations to the contrary. As a result, Food Bank classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by Food Bank in a manner consistent with the standard of prudence prescribed by Oklahoma law and in accordance with original donor stipulations, if any.

Food Bank has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment. Endowment assets include those assets of donor-restricted funds that Food Bank must hold either in perpetuity or for a donor-specified period of time. Under this policy, as approved by the Board, the assets are to be invested with the objective of preserving the long-term, real purchasing power of assets while providing a relatively predictable and growing stream of annual distributions to support Food Bank.

To satisfy its long-term rate-of-return objectives, Food Bank relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). Food Bank targets a diversified asset allocation that places a greater emphasis on equity-based investments (a maximum position of 60% and a minimum position of 50%) to achieve its long-term return objectives within prudent risk constraints. The Board requests pre-approval, from the donor, for the use of capital appreciation and current yield. However, if at any time the value of the funds fall below the fully funded corpus amount, the Board will not make an expenditure request.

Food Bank maintains the following endowments:

- Donald W. Reynolds Distribution Center Endowment Fund. This endowment fund is a permanent, donor-restricted fund created to provide earnings for the ongoing maintenance of Food Bank's distribution facility, the Donald W. Reynolds Distribution Center. During fiscal year 2013, the donor redesignated this fund from permanent to temporarily restricted.
- Donald W. Reynolds Foundation Restricted Fund. This fund is a temporary donor-restricted fund created to provide earnings for the ongoing operations of the programs offered by Food Bank. It is the intent of the Donald W. Reynolds Foundation that the life of the Restricted Fund for Programs would be a minimum of 20 years with earnings, dividends, capital gains and 5% of the corpus being available each year to fund programs.
- Childhood Hunger Endowment Fund. This endowment fund is a permanent, donor-restricted fund created to provide earnings for Food Bank's Childhood Hunger program.

- Equipment Restricted Endowment Fund. This fund includes board-designated and donor-restricted amounts created to fund the orderly replacement and major repair of vital equipment and rolling stock used in warehouse and distribution operations. At June 30, 2015 and 2014, \$677,340 and \$664,361, respectively, of this fund is held by TCFO (see Note 9).
- Endowment funds held by community foundations (see Note 9).

The Food Bank's endowment net asset composition, by type, is as follows:

	Unrestricted	Temporarily Restricted	Permanently Restricted	Total
June 30, 2015				
Donor-restricted endowment funds	\$ -	\$ 3,250,508	\$ 1,307,294	\$ 4,557,802
Board-designated endowment funds	1,846,305	-	-	1,846,305
Total endowment	\$ 1,846,305	\$ 3,250,508	\$ 1,307,294	\$ 6,404,107

Endowment net assets, June 30, 2014	\$ 1,757,826	\$ 3,172,132	\$ 1,218,125	\$ 6,148,083

From time to time, the fair value of assets associated with individual donor restricted endowment funds may fall below the level that the donor or state law requires Food Bank to retain as a fund of perpetual duration. There were no such deficiencies for the years ended June 30, 2015 and 2014.

#### **Note 11 – Commitments**

Food Bank has a contract with the Oklahoma Department of Human Services (ODHS) under which it receives and distributes USDA contributed food and receives reimbursement of related storage and distribution costs. The current contract period runs from October 1, 2014 through September 30, 2015. The funds available under this contract are restricted to purposes and activities approved by ODHS during the contract period. Food Bank recognized revenue and support of approximately \$4,300,000 for contributed food and \$742,000 for reimbursement of costs for the year ended June 30, 2014, under this contract.

#### **Note 12 – Fair Value Measurements**

The Financial Accounting Standards Board Accounting Standards Codification established a consistent framework for measuring fair value and fair value hierarchy based on the observability of inputs used to measure fair value.

These inputs are summarized in the three broad levels listed below:

- Level 1      Quoted prices in active markets for identical assets or liabilities.
- Level 2      Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3      Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodologies used at June 30, 2015. During the year ended June 30, 2015, there were no transfers of financial instruments between Level 1 and Level 2 or transfers into or out of Level 3. Following is a description of the valuation methodologies used for assets measured at fair value:

The fair value of investments in money market funds, equity securities and pooled mutual funds are based upon quoted market prices for identical assets and are classified within Level 1.

The fair value of investments in debt securities are valued using quoted prices in active markets for identical assets when available. Where quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of investments with similar characteristics, or discounted cash flows. Inputs used include broker/dealer quotes and other data which are obtained from independent pricing services. These investments are classified within Level 2.

Beneficial interest in assets held by others is measured at fair value using Level 2 inputs. Since OCCF and TCFO maintain variance power for the beneficial interests held, there is no potential market for the beneficial interests or similar assets. Consequently, the valuation is determined by aggregating the valuation of the underlying investments of the beneficial interest. The underlying investments include cash equivalents, corporate obligations, equity securities and other investments. The fair values of the underlying investments are based on quoted prices from active and inactive markets.

The following table sets forth by level, within the fair value hierarchy, Food Bank's assets at fair value as of June 30, 2015:

	Level 1	Level 2	Level 3	Total
Cash, money market funds, and certificates of deposit	\$ 2,691,649	\$ -	\$ -	\$ 2,691,649
Equity securities	1,338,652	-	-	1,338,652

Other	141,525	200,547
	<u>\$ 9,469,436</u>	<u>\$ 11,703,269</u>

(A) This restricted fund includes the Donald W. Reynolds Foundation Restricted Fund (see Note 10).

Permanently restricted net assets include funds held in Food Bank's endowment to support equipment maintenance, operations and childhood hunger programs (see Note 10).

### Note 14 – Capital Campaign

To effectively meet the growing challenge of hunger in Oklahoma and to sustain the excellence and vision of the Regional Food Bank well into the future, the Regional Food Bank has launched the "***Faces of Hope – A Vision for Sustainable Excellence***" capital campaign. This \$20 million campaign includes significant improvements to the Food Bank's Oklahoma City facility and also will develop 40-50 Food Resource Centers throughout its 53-county service area.

### Note 15 – Related Party Transactions

There are several members of the Food Bank's Board of Directors who have pledge receivables with the Food Bank at June 30, 2015. The pledge receivable balances from these members were approximately \$570,000 and \$1,590,000 for the years ended June 30, 2015 and 2014, respectively.

## **OTHER REPORTS**

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF  
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH  
GOVERNMENT AUDITING STANDARDS**

**INDEPENDENT AUDITOR'S REPORT**

The Board of Directors  
FoodLink, Inc. and Subsidiaries  
(dba Regional Food Bank of Oklahoma)

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of FoodLink, Inc. and Subsidiaries (dba Regional Food Bank of Oklahoma, collectively referred to as Food Bank), which comprise the consolidated statement of financial position as of June 30, 2015, and the related consolidated statements of activities, and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated September 29, 2015.

**Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Food Bank's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Food Bank's internal control. Accordingly, we do not express an opinion on the effectiveness of Food Bank's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Food Bank's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the

determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**REPORT ON COMPLIANCE WITH EACH MAJOR FEDERAL PROGRAM AND REPORT ON  
INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133**

**INDEPENDENT AUDITOR'S REPORT**

The Board of Directors  
FoodLink, Inc. and Subsidiaries  
(dba Regional Food Bank of Oklahoma)

**Report on Compliance for Each Major Federal Program**

We have audited FoodLink, Inc. and subsidiaries (dba Regional Food Bank of Oklahoma, collectively referred to as Food Bank) compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of Food Bank's major federal programs for the year ended June 30, 2015. Food Bank's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

***Management's Responsibility***

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

***Auditor's Responsibility***

Our responsibility is to express an opinion on compliance for each of Food Bank's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Food Bank's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Food Bank's compliance.

***Opinion on Each Major Federal Program***

In our opinion, Food Bank complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2015.

### ***Other Matter***

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with OMB Circular A-133 and which is described in the accompanying schedule of findings and questioned costs as item 2015-001. Our opinion on each major federal program is not modified with respect to this matter.

Food Bank's response to the noncompliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. Food Bank's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

### **Report on Internal Control Over Compliance**

Management of Food Bank is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Food Bank's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Food Bank's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

<b>Program</b>	<b>Finding/Noncompliance</b>	<b>Questioned Costs</b>
<p>CFDA 10.569 U.S. Dept. of Agriculture (USDA) Emergency Food Assistance Program: Commodities</p>	<p>Item 2015-001:Special Tests and Provisions</p>	<p>\$ -</p>
<p>Condition:</p>	<p>Grant participants must maintain accurate and complete records respect to the receipt, distribution/use, and inventory of donated foods, including end products processed from donated foods. Failure to maintain records required by 7 CFR section 250.16 shall be considered prima facie evidence of improper distribution or loss of donated foods, and the agency, processor, or entity is liable for the value of the food or replacement of the food in kind (7 CFR sections 250.16(a)(6) and 250.15(c)).</p>	
<p>Cause and Effect:</p>	<p>Subsequent to a software upgrade in 2013, the value of USDA commodity items that required a new item number was not reported correctly in the system reports used by Food Bank to account for program expenditures. Consequently, the distributions for those items were not reported correctly on the monthly reports to the Oklahoma Department of Human Services. Due to inaccurate inventory system reports, the Food Bank underreported USDA expenditures of approximately \$745,000.</p>	
<p>Recommendation:</p>	<p>Accurate and complete inventory reports should be reconciled to the accounting records monthly and to the schedule of expenditures of federal awards annually.</p>	
<p>View of responsible officials and planned corrective action:</p>	<p>The Food Bank has subsequently implemented a number of procedures to prevent future misstatements, to include: replacement of inventory and receiving personnel with experienced managers; retraining of all Receiving and Inventory personnel; blocking errant fields, and; the hiring of a new programming firm to assess current valuation reports, modify existing reports and provide exceptions reports (pounds received without values). Deb Bunting, CFO, is responsible for the corrective action plan. The plan was implemented by August 2015.</p>

<p>CFDA 10.569 U.S. Dept. of Agriculture (USDA) Emergency Food Assistance Program: Commodities</p>	<p>Item 2014-001 – Special Tests and Provisions: Underreporting of USDA inventory</p>
<p>Criteria and Condition:</p>	<p>Subsequent to a software upgrade in 2013, the value of USDA commodity items that required a new item number was not reported correctly in the system reports used by Food Bank to account for program expenditures. Consequently, distribution of those items was not reported in the financial statements and the schedule of expenditures of federal awards and Food Bank underreported CFDA 10.569 U.S. Dept. of Agriculture Emergency Food Assistance Program – Commodities expenditures by approximately \$574,000. Circular A-133 states that the auditor should determine whether the schedule of expenditures of federal awards is presented fairly in all material respects in relation to the auditee's financial statements taken as a whole.</p> <p>The error has been corrected for future reporting. Due to the inaccurate inventory reports that resulted in the understatement of expenditures, the Food Bank did not meet the special tests and provisions requirement resulting in a significant deficiency in internal controls over compliance.</p>
