

Link2Feed Client Intake Guide:

Creating Households and Linking Members

Revised 3/03/2025

Every user at every partner agency is expected to use the system the same way to preserve the integrity of the data. The following instructions should be provided to everyone at your location that will be utilizing Link2Feed to ensure consistent intake practices and system use.

Always begin by searching through existing clients before entering new data. We recommend searching by Date of Birth. Within Link2Feed, you can search by name (first, last, or both), date of birth, address, and phone number. You may also scan their barcode if they have one assigned. If no client match is found, **then** create a new client profile.

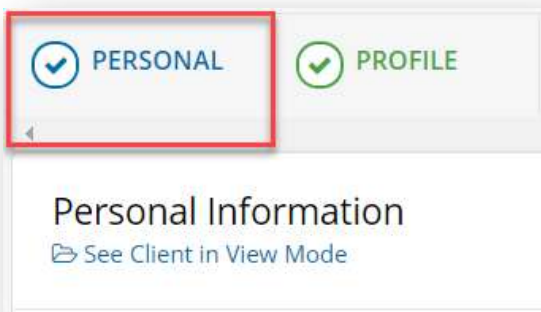

Search for Clients By...	Client ID	Date of Birth	Phone	Barcode	CSFP ID
Date of Birth format is MM-DD-YYYY					
03-12-1967					
Brown, Mercedes 03-12-1967					
Thomas, Tina 03-12-1967					
Wadkins, Carol 03-12-1967					
Bickmore, George 03-12-1967					

Entering New Clients

When entering a new client profile, it must be completed within 72 hours or the information will be removed from the system. A profile is not considered “complete” until the first 4 tabs (Personal, Profile, Monthly Income, and Dietary Considerations) are completed and the “Services” tab is accessed.

1. Personal Tab

This is where you will enter the Head of Household’s information, including information on the members in their household.

Under **First Food Bank Visit**, please select “Today” if doing live client intake, or “Specific Date” with the date the client filled out the paperwork. This is a required field within Link2Feed that we are unable to remove, it’s best to think of this as the first visit since using Link2Feed.

A screenshot of a dropdown menu titled “* First Food Bank Visit”. The menu is open, showing options: “Select”, “Unknown”, “Today” (highlighted in blue), and “Specific Date”. Below the menu, the text “mm-dd-yyyy” is visible.

The **Last Name** and **First Name** boxes are dynamic, so you can include suffixes such as Jr or nicknames and middle names by entering a space between the last or first name and what you wish to add.

If a client is uncertain regarding their **date of birth**, you may check the “Date of Birth Estimated” box below the date of birth field, but a date must still be entered. The age will automatically populate based on the date of birth entered.

Below the date of birth field is a checkbox labeled “Is Date of Birth Estimated?” with a red arrow pointing to it.

The **gender** drop-down allows you to select the appropriate option notated by the client.

Marital Status is required and allows you to select the appropriate option notated by the client.

When entering the **address**, Link2Feed will begin searching valid addresses that match against what the United States Postal Service has on file. **Please be sure the address that populates exactly matches what the client provides to you**, as other state addresses will begin to populate as well. If the address cannot be found in the system, you can still save it; you will just need to enter it manually.

This form is used to assign a barcode to a client. It features a dropdown menu for 'ID Type' with 'Link2Feed Barcode ID' selected. To the right is a 'Confirmation' field containing the number '531746'. Further right is a 'Scan Barcode' button with a barcode icon. At the bottom left is a blue '+ Add' button. Household Members

Please enter **any** member associated with your client's household, even if another household may be claiming them. L2F provides a feature to note that members are shared with multiple households. Similar to creating a Head of Household profile, if the information being entered matches a profile already in the system, you will receive the Possible Duplicate pop-up. *Both of these instances are covered in the appropriate "Managing Household Members" and "Managing Potential Duplicates" guides.*

If the client is uncertain of a member's date of birth, please use the "Date of Birth is Estimated" checkbox to indicate this.

This form is titled 'Household Member Info'. It contains the following fields: 'Last Name' (stewart), 'First Name' (eli), 'Date of Birth' (05-01-2023), 'Age' (0), 'Gender Identity' (Male), and 'Relationship' (Child). There is a checkbox for 'Is Date of Birth Estimated?'. The 'Ethnicity' section includes checkboxes for: Alaska Native / Aleut / Eskimo, American Indian / Native American, Asian, Black / African American, Hispanic / Latino, Middle-Eastern / North-African, Pacific Islander, White / Anglo, Didn't Ask, Don't Know, and Prefer Not to Answer. The following options are selected: American Indian / Native American, Black / African American, Hispanic / Latino, and White / Anglo. At the bottom, there is an 'ID Type' section with a '+ Add' button, and a 'Confirmation' field. The form has a 'Cancel' button and a 'Save Changes' button at the bottom right.

When you have finished adding household members, they will populate in the profile with a base summary of their information. Click “Save & Next” to continue entering the client’s profile. ***Use “Save & Next”** wherever possible to ensure information is saved.

2. Profile Tab

This information pertains **only** to the Head of Household. The Education and Employment information **is required** to save a client’s profile.

When finished, click “Save & Next” to continue to the next page of the client profile.

Monthly Household Income will be used to determine TEFAP eligibility, and to provide better data on the current needs of the household. If your agency distributes USDA commodities, you will have a separate TEFAP tab. *Please note that this is the income amount for the entire household on a monthly basis.*

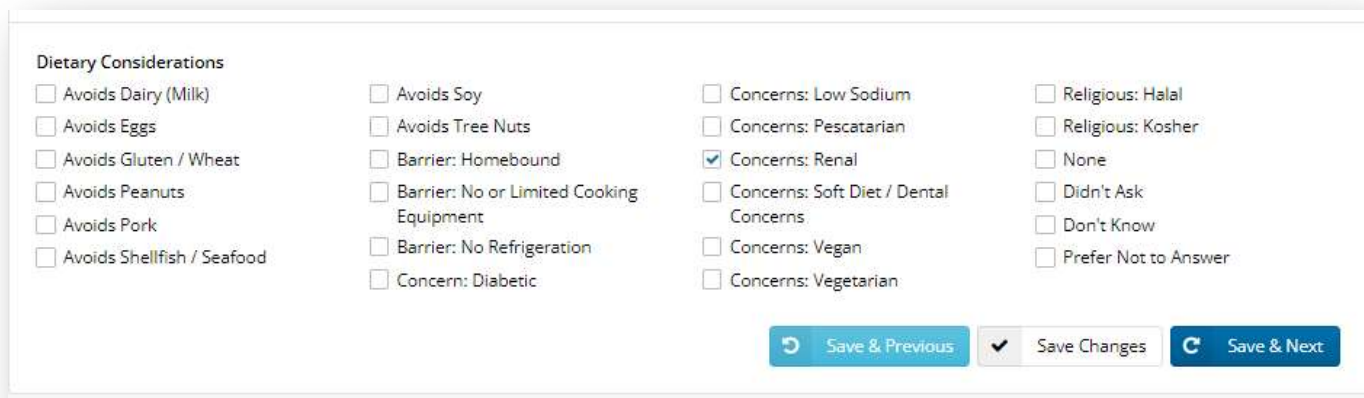

- As a reminder, **Oklahoma is a self-declare state**, meaning proof of income is **not** required and **cannot** be requested.
- This is only meant to track **gross** income; please **do not** count other benefits such as SNAP as a source of income. SNAP is awarded based on income and **cannot** be included as income.

The screenshot shows a form titled "Monthly Income" with a sub-header "Monthly Household Income" and a help icon. Below this is a text input field containing the dollar amount "2200.00".

4. Dietary Considerations Tab

This tab is meant to list any dietary preferences, concerns or barriers a client or their household member(s) may have. Click "Save & Next" to be taken to the next tab.

The screenshot shows the "Dietary Considerations" tab with a grid of checkboxes. The "Concerns: Renal" checkbox is checked. At the bottom right are three buttons: "Save & Previous", "Save Changes", and "Save & Next".

<input type="checkbox"/> Avoids Shellfish / Seafood	<input type="checkbox"/> Concern: Diabetic	<input type="checkbox"/> Concerns: Vegetarian	<input type="checkbox"/> Prefer Not to Answer

Once you have completed these four intake tabs and are able to access the "Services" tab, your client's profile is considered complete. You will now be able to search for this client as well as any of their household members.

If you are a TEFAP or CSFP agency, the appropriate program certification tab will populate; otherwise, you will be taken to the "Services" tab. *Information on certification is located in the TEFAP or CSFP guides as appropriate.*

Linking Household Members and Managing Potential Duplicates

When creating a new client profile, Link2Feed is dynamically comparing the information you enter against information already in the system.

In instances where separate households are claiming a single client, it is possible to associate the client with each household to avoid duplication. Most commonly, this will become evident when a new client entering information during intake lists a member that is already within the Link2Feed system. **When this happens, a “Possible Duplicate” pop-up will appear.**

- First, verify whether the information entered matches the possible duplicate listed and is in fact the same person. You may do this by clicking the “See More” button.

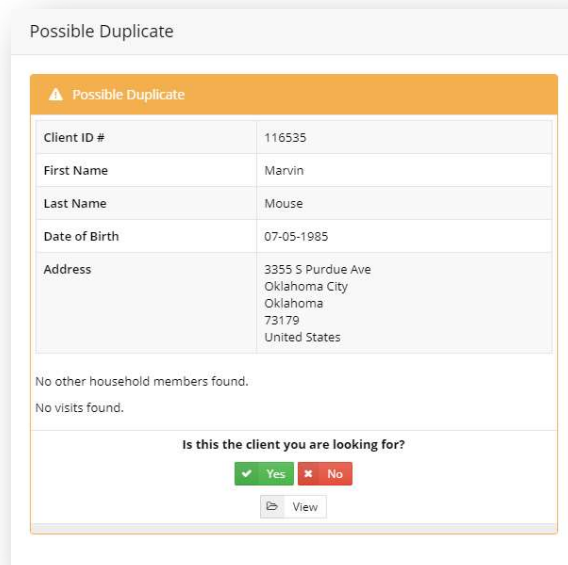

Possible Duplicate

Possible Duplicate		
116535	Mouse, Marvin	1985-07-05

[See More](#)

- This will generate a new window with additional information for you to compare against the information entered for the potential duplicate profile.

Possible Duplicate

Possible Duplicate	
Client ID #	116535
First Name	Marvin
Last Name	Mouse
Date of Birth	07-05-1985

No other household members found.
No visits found.

Is this the client you are looking for?

☒ Yes ☐ No

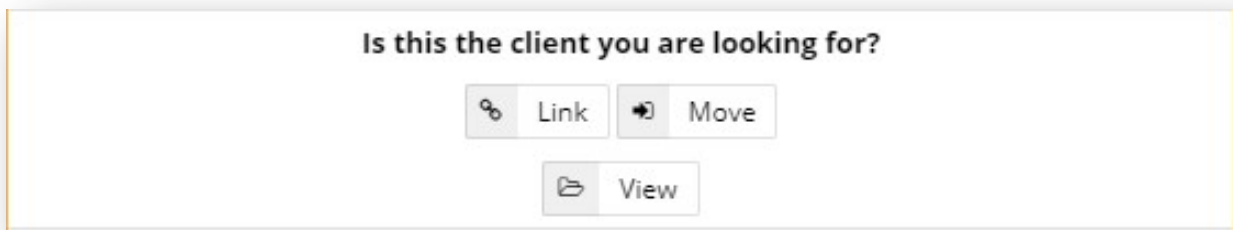

[View](#)

- **If the information does not match**, please click the “No” button to dismiss the duplicate. This instance of possible duplication will still be recorded and can be reviewed or modified later, if necessary.

- **If the information matches**, please click the “Yes” button to confirm that this is the same person.

If this client is associated with another household, this will populate a new option:

- Choose “**Link**” if this member belongs to more than one household. This may be the case for grandparents who take care of grandchildren during the summer, other custody arrangements, et cetera.
- Choose “**Move**” if the member has completely vacated the other household and now solely resides in the household being entered.

As you may notice, the system **does not** allow for duplicate accounts to be created. Every instance of possible duplication, and possible duplications that have been marked as dismissed, are recorded for review by your agency manager and Regional Food Bank. This is to help ensure and maintain the integrity of unduplicated data regarding the clients we serve.
